- Empower students as they gain understanding of their learning objectives and take ownership of their learning

Research shows that trimester grading periods are more developmentally appropriate for elementary school students for the following reasons.
- Provides more time for students to learn and demonstrate proficiency
 - Provides longer time at beginning of the year for students to acclimate to new school, classroom, and schedule before baseline testing and grading for first report card
 - Provides more time for teachers and parents to identify and correct areas of concern during the grading period
 - Fewer marking periods reduces time needed for testing, which allows more time for direct instruction
 - Provides more flexibility for teachers to pace curriculum and ensure student mastery of instruction
 - Trimesters will also improve parent communication in the following ways:
 - Progress reports at mid-trimester will better reflect actual student growth and learning
 - More specific, quality information is provided on each report card (standards-based report cards)
 - Trimester one will end in Dec. of 2018, trimester two will end March 2019, and Trimester three will end in June 2019. Exact dates to follow pending 2018/2019 school calendar.
